

Induction Cooktop

SLEEK DESIGN. EXCEPTIONAL EFFICIENCY.

Redesigned with control and style in mind, the Wolf Induction Cooktop pairs exceptionally efficient cooking technology with a sleek new look and powerful features accessible via intuitive touchscreen. Two design styles and sizes allow for seamless integration into any space and kitchen design.

PRODUCT HIGHLIGHTS

NEW

FULL-COLOR TOUCHSCREEN CONTROLS

The sleek cooktop features a large 7" interactive display. The full-color touchscreen is intuitive, easy to read, and locks for safety.

NEW

17 POWER SETTINGS + BOOST MODE

A range of power settings enhance precision with half increment power adjustments. Leverage Boost Mode to deliver rapid heat for 40% faster boil times, rivaling the speed of gas and electric.

NEW

DESIGN

Square Zone aesthetics make it easy to properly center cookware in the cooking zone. Available in transitional and contemporary design styles in 30" and 36" widths, the cooktop pairs seamlessly with other Sub-Zero, Wolf, and Cove appliances of the same style.

EASY-TO-CLEAN SURFACE

Cleaning is simple. The smooth, black ceramic glass surface resists scratching and staining, and wipes clean. The touchscreen locks for easy cleaning without disrupting controls.

INTUITIVE CONTROLS

AUTO LOCK

The Auto Lock setting disables the cooktop controls when not in use for increased safety.

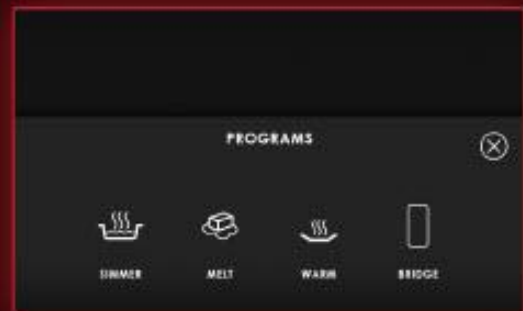

BRIDGE FUNCTION

The Bridge function joins two induction zones into one larger zone, enabling use of an induction-capable griddle, open roaster, or fish poacher.

INDIVIDUAL ZONE TIMERS

Independent cooking zone timers provide additional control and versatility when preparing a variety of dishes at once.

TEMPERATURE BASED COOKING

Sensor controlled cooking programs regulate consistent low heat for simmering, melting, and warming without scorching.

PAUSE-AND-RESUME

The Pause-and-Resume feature suspends cooktop and all timers for a maximum of 10 minutes.

MULTIPLE LANGUAGES

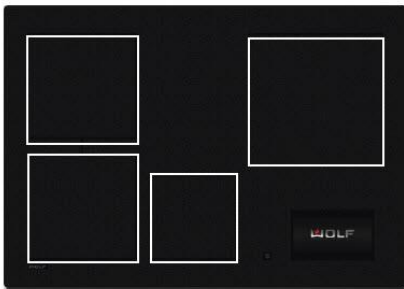

Updated controls offer language translations for English, Spanish, French, Italian, German, Dutch, and Chinese (simplified).

Induction Cooktop
